

ALEX MAWEU

SUMMARY

Tech-oriented Computer Science student demonstrating strong analytical thinking and attention to detail. Experience in AI model training, web design using HTML, CSS, and JavaScript, and independent project work. Seeking roles in AI training, data annotation, and remote tech support.

EXPERIENCE

Web Designer

Nate Enterprise | Nairobi, Kenya | September 2025 - Current

- Created responsive web designs to ensure optimal performance on all devices.
- Designed user-friendly website layouts that enhanced customer engagement and navigation.
- Implemented interactive features using HTML, CSS, and JavaScript.
- Collaborated with marketing team to create engaging graphics that supported campaign objectives.
- Utilized technical skills to troubleshoot complex issues and implement effective solutions.
- Assisted in troubleshooting issues related to data integrity and model performance.
- Trained AI models using diverse datasets for improved accuracy and performance.
- Collaborated with cross-functional teams to enhance data collection strategies.
- Conducted regular assessments of model outputs for consistency and reliability.
- Developed training materials to support AI model understanding and utilization.
- Conducted comprehensive research and data analysis to support strategic planning and informed decision-making.

Independent AI & Digital Work

Nate Enterprise | Nairobi, Kenya | January 2024 - Current

- Evaluated AI-generated responses, enhancing quality, accuracy, and clarity for better user understanding.
- Categorized data and organized digital workflows, improving project efficiency and information retrieval.
- Conducted online research and organized structured information, streamlining access to relevant data.
- Worked with productivity tools for documentation and remote collaboration.
- Engaged in self-directed projects to explore new concepts and techniques.
- Built strong instruction-following and analytical skills through independent learning.
- Collaborated closely with team members to achieve project objectives and meet deadlines.
- Worked successfully with diverse group of coworkers to accomplish goals and address issues related to our products and services.
- Contributed innovative ideas and solutions to enhance team performance and outcomes.

LANGUAGES

English — Fluent, Swahili — Fluent

PROJECTS

- AI & Content Evaluation Practice, Tested and analyzed AI-generated outputs for coherence and usefulness. Improved understanding of prompt structure and response quality.
- Explored software troubleshooting and system optimization. Learned basic programming and computer system concepts. Familiar with remote collaboration and digital task management.

SKILLS

- Web development
- HTML and CSS
- Advanced JavaScript Techniques
- Responsive Design Principles
- Interactive Design Tools
- Collaborative Design Tools
- Design Trend Analysis
- AI model training
- AI Training & Prompt Evaluation
- Data Labeling & Annotation
- Technical Problem Solving
- Attention to Detail
- Python
- Basic Coding Knowledge
- Office software proficiency
- Google Docs / Sheets
- Microsoft Word & Excel
- Fast learner
- Adaptable to New Systems
- Independent Worker
- Communication & Collaboration
- Strong Written Communication

EDUCATION

Degree

Computer Science
Mount Kenya University, Thika

- Relevant Coursework:
- Data Structures
- Computer Applications
- Networking Fundamentals
- Communication Skills
- Operating Systems
